

Federal Capabilities Statement

Founded in 1931, Walter P Moore has grown into an international company of engineers, innovators, and creative people who solve some of the world's most complex engineering challenges. More than 1,100 employees across 36 CONUS/OCONUS locations provide structural engineering, infrastructure design, and diagnostics services, as well as niche technology solutions that support these practice areas.

Walter P Moore has over 60 years of experience supporting multiple branches of the U.S. federal government and a proven record of performance under Design-Build, single-award A/E, and IDIQ/MATOC contract vehicles. Our representative list of federal clientele includes various DoD and Civilian agencies, such as GSA, USACE, NAVFAC, Department of Veterans Affairs, FAA, and Department of State (OBO). By working closely with the federal building owners, users, and their design teams, we develop facilities that are flexible, functional, and economical.

Walter P. Moore and Associates, Inc.

HEADQUARTERS: 1301 McKinney, Suite 1100, Houston, Texas 77010

UEI: N45NMN1XLR55

DUNS: 058261454

CAGE: 0L5U3

NAICS: 541330 (Engineering Services)

FOUNDED

1931
